

A
WEBINAR
ON
**ENTREPRENEURSHIP AS
CAREER CHOICE**

ORGANIZED

BY

**Rajkiya Engineering College
Ambedkar Nagar, U.P.**

*In
Collaboration
With*

EDI India, Ahmedabad

The government intention to promote entrepreneurship has been articulated time and again through its initiatives like Startup India, Stand up India, Digital India, Make India, AatmaNirbhar Bharat and Vocal for Local Initiative. Even the Hon'ble Prime Minister's vision to turn India into a USD 5 Trillion economy by the year 2024-25 is possible only through imbibing entrepreneurship at a large scale. The pandemic Covid-19 has devastated almost every aspect of life. We believe holistic preparedness is a key to tackle the situation that arose after pandemic.

Being an Educational organization, the Rajkiya Engineering College, Ambedkar Nagar, U.P. extends its support to the nation building through reaching out all the academic activity. The fundamental aim to outreach this program is to communicate with young minds on '*Entrepreneurship as Career Choice*'.

27 May 2021 | 11:00AM - 12:00 PM
